- Scored 4 star at hacker rank on problem solving using Java.
- Have attended HackCBS 4.0 Hackathon.

ABOUT

I am a self-taught developer currently learning new MERN stack and some more programming languages. I really love writing codes. Ever since I have started my coding journey, I feel like I found the place where I really belong to. I have gained several knowledge on coding for the past two years and I am seeking for the internship opportunity to implement the skills that I have learned and to gain work experience.
